DETAILED ACTION

Allowable Subject Matter

1. Claims 2-11, 15-29, and 33-37 are allowed.
2. The following is an examiner's statement of reasons for allowance:

U. S. Publication 2002/0055801 to Reiss et al. is the reference closest to the claimed invention. Reiss et al. disclose a system for monitoring consumption of utilities by semiconductor fabrication processes, comprising: at least one semiconductor process tool comprising a plurality of process-control devices for controlling process conditions within the process tool; at least one tool controller communicating with the plurality of process-control devices according to a process recipe for treating workpieces within the process tool; and computer software residing in a memory of said tool controller, the computer software configured to collect data reflecting resource consumption from the plurality of devices and to compile and store said data. However, Reiss et al. do not teach at least one semiconductor process tool comprising a plurality of process-control devices for controlling process conditions within the process tool; at least one tool controller communicating with the plurality of process-control devices according to a process recipe for treating workpieces within the process tool; and; and including all of the other limitations in the respective independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
